R. Turner Max Planck Institute of Cognitive Neuroscience,
Leipzig, Germany,

Scientific Advisors

I. Peretz University of Montreal, BRAMS, Canada,

R. Zatorre McGill University, BRAMS, Montreal, Canada

Scientific Secretariat

L. Lopez University

of Rome Tor Vergata, Italy

The conference programme is divided into 4 subthemes: "Infants and Children", "Adults: musicians and non musicians", "Disabilities and aging-related issues" and "Therapy and Rehabilitation". It will include Keynote Lectures, Symposia, Poster Sessions and a Workshop on child-oriented research design and new data acquisition and analysis techniques, to be held in the afternoon on 9th June. The meeting will be of interest not only to neuroscientists, psychologists and students but also to clinical neurologists, clinical psychologists, therapists, music performers and educators as well as musicologists. **POSTER PRESENTATIONS** *The Scientific Community is invited to present posters through the online form available on the Mariani Foundation's website.*

Deadline for poster submission will expire on 15th March 2011.
